

MUSTON GROUP
INTERNATIONAL

There is no experience on earth that can compare to a charter on a private motor yacht! Having everything you want without compromise. Being served by professional crew who are happy to see you on board. A chef who makes the most exquisite dishes catering to your personal culinary preferences. A captain who will make you feel safe and secure while taking you to the most amazing locations.

A PRIVATE YACHT CHARTER IS VERY PERSONAL

SO RELY ON

“THE POWER OF EXPERIENCE”

Our company is comprised of professionals who have been in the yachting business for many years. We are a group of captains, chefs, stewardesses and engineers. We understand the importance of being discreet and professional. Muston Group International would like to assist in planning your dream charter by first helping you to select the correct yacht and crew. Use our vast experience and knowledge of the cruising areas of the world to plan the perfect itinerary. We will recommend cruising areas and suggest restaurants, beaches and other activities to enhance your charter. We have cruised all over the world and continue to build relationships with port captains, restaurant owners, private drivers, and suppliers of the best quality fresh foods and fine wines. These relationships allow Muston Group International to provide you with service beyond what a booking agent can give.

Allow us to assist you in booking and planning the best vacation possible with our knowledge and experience. We are passionate about your charter and want to make it the best experience you have ever had.

We look forward to speaking with you soon concerning your dream charter.....

Sincerely,

Brian Muston
Director
